

## KooKoo BirdHouse – The cuckoo clock with a difference

KooKoo gave the traditional cuckoo clock a new and modern design: clear, simple, pure. In black or white. The coloured birds and pendulum can be combined and easily exchanged.

**KooKoo brings  
nature to your home**

With BirdHouse, a bird appears every hour, on the hour. It sings either once, or several times, according to the hour. There are 12 songs to choose from, from the blackbird to the golden oriole. Plus the cuckoo. All the birdsongs are authentic field recordings. The choice is yours: from the cuckoo to an entire flock. At night, the birds go to sleep. A light sensor ensures a quiet night.

## **KooKoo EarlyBird – An alarm clock with real birdsongs**

### **The natural way to be woken**

What can be more pleasant than to be woken up with the sound of birdsong? Sung by an entire flock of birds. From the energetic call of the cuckoo to the dulcet tones of the nightingale. EarlyBird can play 13 birdsongs, from the blackbird to the golden oriole, plus the cuckoo. The birdsongs gradually get louder (three sound levels) until one either gives in or hits the snooze button.
