## PRESS RELEASE

### KooKoo - The Original Singing Bird Clock

Every hour on the hour, a particular animal can be heard, the recording lasting ca. 10 secs. All the animals were drawn by the famous children's illustrator Monika Neubacher-Fesser. Each clock comes with an accompanying brochure and line drawings for children to colour in. Original field recordings ensure high-quality sound.

**KidsWorld – farm animals:** the cat meows at 7 o'clock, a sheep bleats at 9 o'clock and at noon the pig grunts!

**KidsZoo – Zoo animals:** the lion roars at 12 o'clock, a zebra brays at 4 o'clock and at 9 o'clock the elephant trumpets!

At night, both humans and animals need their rest. A light sensor automatically switches off the animal sounds when it gets dark. Children learn in a fun way how to tell the time and recognise the different animals.

The clock is available in three finishes: yellow/orange, wood or aluminium.  
Large 13.4 inches (34 cm). Prices start from £44.90.

Available at Amazon.co.uk or [www.kookoo.eu/en](http://www.kookoo.eu/en)
